QUALITY-NRO

February 14, 2008

Mr. Terry Darton, Air Permit Manager  
Virginia Department of Environmental Quality  
13901 Crown Court  
Woodbridge, VA, 22193

Please accept my endorsement of the proposed stack merge permit as at least an interim solution to our potential power shortage problems.

Very sincerely,

Juli Sande, 5708 Norton Road, Alexandria, VA 22303, 703 960-3549,

Subject: Please grant the stack merge permit

Dear Virginia Air Board.

I strongly support the stack merge solution for the Potomac River Generating Station.

The demand for energy is growing and our region may face rolling black outs and serious electric shortages in the coming years if we don't act soon. The people of Alexandria deserve a solution today.

I'm also concerned and care deeply about our air quality and want the Potomac River Generating Station to be allowed to make improvements that will improve our regions air quality.

The stack merge is the solution.

The Alexandria City Council has stated on the record that their objective is to shut down the plant so they are clearly not interested in making any improvements to the plant. The Alexandria City Council must stop playing politics with our air. The stack merge is a real solution and will improve my air quality. Please grant the stack merge permit. It's a common sense solution we can all agree on.
